Mr. Guy Castelain Perry  
IN-VI Investment Environment  
Warsaw – Poland

The Hague, 24 July 2008

The evaluation of all entries for the 2008 ISOCARP Award for Excellence Prize took place during a meeting of the Jury that was held in Madrid, Spain, on 17 July 2008 at the headquarters of the Fundación METROPOLI. Since the quality of the entries and the way in which each one highlighted the evaluation criteria was extraordinary, the Jury decided to assign the Award for Excellence to six different projects.

On behalf of ISOCARP we are pleased to announce that the project submitted by

**IN-VI Investment Environment  
Miasteczko Wilanow Master Plan – Warsaw - Poland**

*was selected by the Jury to be awarded the*

**2008 ISOCARP Award for Excellence**

*'For elaborating a coherent master plan of Warsaw notwithstanding the difficult situation in east European countries and in particular a) for combining the work of private investors with public objectives for the benefit of the whole city b) for promoting a master planned community totally integrated in the city and c) for the implementation of the principle of mixed uses/ activities, the scale of urban fabric and the structural connection with the surrounding cities'*

In the light of this decision ISOCARP invites you to come to the City of Dalian (China) on 23 September 2008 to give a technical presentation of the project to our 2008 World Planning Congress delegates.

The Award Ceremony itself will take place in Sitges (Barcelona), Spain, on 8 November 2008 during a Gala Dinner on the occasion of World Planning Day.

ISOCARP is pleased to extend a formal invitation to the Mayor of the City of Warsaw to receive the Award at this important ceremony.

ISOCARP would also like to inform you that the awarded projects will be published in a special edition book that will be distributed worldwide.
